# CustomerCall<sup>®</sup>

All-In-One

Benefit immediately from:

- > **Small footprint**  
Unique design includes transmitter, charger and pagers in one compact unit.
- > **Customer-Friendly Paging**  
Turn tables faster, creates a more peaceful atmosphere, and increases sales.
- > **Anti-Theft Feature**  
Minimises pager loss with an 'Out-of-Range' alert.
- > **Most Reliable Pagers**  
Made from high-quality parts for the best performance in the industry.
- > **Unique System ID**  
Prevents nearby paging systems from interfering with communication in your restaurant.
- > **Smart Charging**  
Dramatically extends the life of pager batteries without overcharging them.
- > **Large Promotional Space**  
Deliver your messages and adverts directly to your waiting customers.

Reduce Noise

Improve Guest Flow

Increase Profits

Turn tables faster and improve your guests' experience, with an All-In-One (AIO) customer paging system. The AIO consists of a base station, charger, and up to 15 pagers in one compact unit. It is ideal for smaller premises and limited spaces.

Located near the hostess stand, simply hand queuing guests a CustomerCall pager from the AIO. They are then free to visit the bar or nearby areas while they wait. When a table is ready, notify guests with a flash, bleep or vibration. Staff no longer spend time searching for guests. Customers will be seated quicker, helping increase your table turns and sales.

The easy way to manage your queues

## Additional pager options available

**CST Alphanumeric pager**

Numeric 1 line or 12 character text message pager. Also available with a paddle.

**EuroCoaster**

Digital coaster pager, which flashes, beeps and vibrates.

**I-Station**

This device is used as a repeater, for extended range within an All-In-One system.
